## INCLUDES:

Headset, Over-the-ear style hook, Quick Disconnect curly cord, clothing clip, headset hook, headset bag and leatherette ear cushion

The microphone boom can be swiveled 320° therefore allowing for an easy change of sides from ear to ear. The extremely lightweight design ensures fatigue-free use throughout the day

Wideband receiver for sound quality with enhanced audio quality for UC and VoIP.

The unique stable Clickstop-lock ensures that the microphone is positioned correctly all day long without repeated adjustments.

The use of an innovative speaker system with large bandwidth ensures crystal-clear, natural sound quality. At the same time the bi-directional microphone **provides exceptionally high background noise suppression.**

Available with FreeMate, Plantronics or GN QD plug or optionally RJ 9/11, 2.5/3.5mm plug or VoIP cable.
